# U.S. EXPORT SALES

- Outstanding Export Sales  
(Unshipped Balances)  
On March 21, 1976
- Export shipments in  
Current Marketing Year
- Daily Sales reported  
March 22 - 30, 1976

-- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of April 1, 1976 (based on reports from exporters during the week ending March 21, unless otherwise noted):

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1975/76 advanced by 78,600 metric tons (MT), the lowest weekly increase in commitments since the start of the marketing year. Total commitments for the year now stand at 29.6 million MT, compared with 29.0 million MT for the corresponding period a year ago. New sales to Taiwan of 63,500 MT represented the week's single major increase in commitments. Commitments to Taiwan now stand at 516,200 MT, more than 150,000 MT higher than commitments for the comparable period last year. Commitments to East Germany declined by 27,000 MT, largely as a result of destination changes.

The apparent export commitment for wheat products increased by 129,700 MT, primarily reflecting sales of PL-480 wheat flour to Egypt totaling 120,800 MT. Commitments of wheat products to Egypt now stand at 194,800 MT, representing almost one-half of the total wheat products commitment.

Feedgrains: The apparent export commitment for feedgrains increased by 1.5 million MT to a total of 33.9 million MT for the year. Corn commitments advanced by 1.5 million MT, of which 537,500 MT were increased commitments to the USSR (these largely reflect transfers from optional origin and destination changes rather than new purchases by USSR authorities; the destination-change portion was announced in last week's report under comments pertaining to daily sales activity). New sales were largely responsible for the increases in commitments to the European Community (EC), 145,900 MT; Japan, 445,500 MT; and unknown destinations, 154,200 MT. This week's increased commitments to the EC and Japan have pushed total commitments to those destinations to 6.4 million MT and 4.3 million MT, respectively. Total sorghum commitments rose by 63,800 MT, largely as a result of increased commitments to Japan, which now stand at 1.8 million MT. This represents about two-fifths of total sorghum commitments for the year.

Rice: The apparent export commitment for rice in 1975/76 rose by 23,600 MT, largely as a result of increased commitments to Zaire of 11,000 MT. Rice commitments for the year now total 1.2 million MT, compared with 2.0 million MT at this time last year.

Soybeans: The apparent export commitment for 1975/76 increased by 515,000 MT, the largest weekly increase since early October. Increased commitments to the EC, Japan, Romania, Spain, and Israel were mainly responsible. Commitments to unknown destinations decreased by 95,500 MT. Exports during the week totaled 464,600 MT, primarily to the EC, 258,500 MT; Japan, 112,300 MT; Spain, 63,000 MT; and Taiwan, 20,800 MT.

Peru's fishing fleet of up to 360 boats is reportedly catching over 50,000 MT of anchovies per day, measuring about 11-13 cm. The total catch in 1976 is expected to be between 4.0 and 4.5 million MT yielding 900,000-1.0 million MT of meal. Peruvian fishmeal exports, forecast at 800,000-900,000 MT, are expected to benefit substantially from the EC deposit scheme on oilseeds and oilseed meals because they are excluded.

Soybean Oilcake and Meal: The apparent export commitment for 1975/76 increased by 85,100 MT, primarily reflecting increased commitments to the EC, Spain, and unknown destination. Exports during the week totaled 86,900 MT, primarily to the EC, 29,700 MT; Venezuela, 22,200 MT; and Spain, 21,800 MT.

Cotton: Export sales activity continued about the same as the relatively good level of the previous week in spite of a decline in U.S. prices which brought them more nearly in line with those of competitive growths. The failure of the decline in U.S. prices to attract greater sales at a time when offers of competitive growths are limited reflects a relative weakness in international demand. The Republic of Korea accounted for over half of the new sales reported for the current and following seasons. Japan and the Republic of China were the next largest buyers.

Rice Marketing Year is August 1 through July 31.

Outstanding sales of rice during the current marketing year are more than 40 percent below the previous year's level. A significant decline occurred in other Asia and Oceania which dropped by more than 58 percent due primarily to lower outstanding sales levels for Korea and Iran.

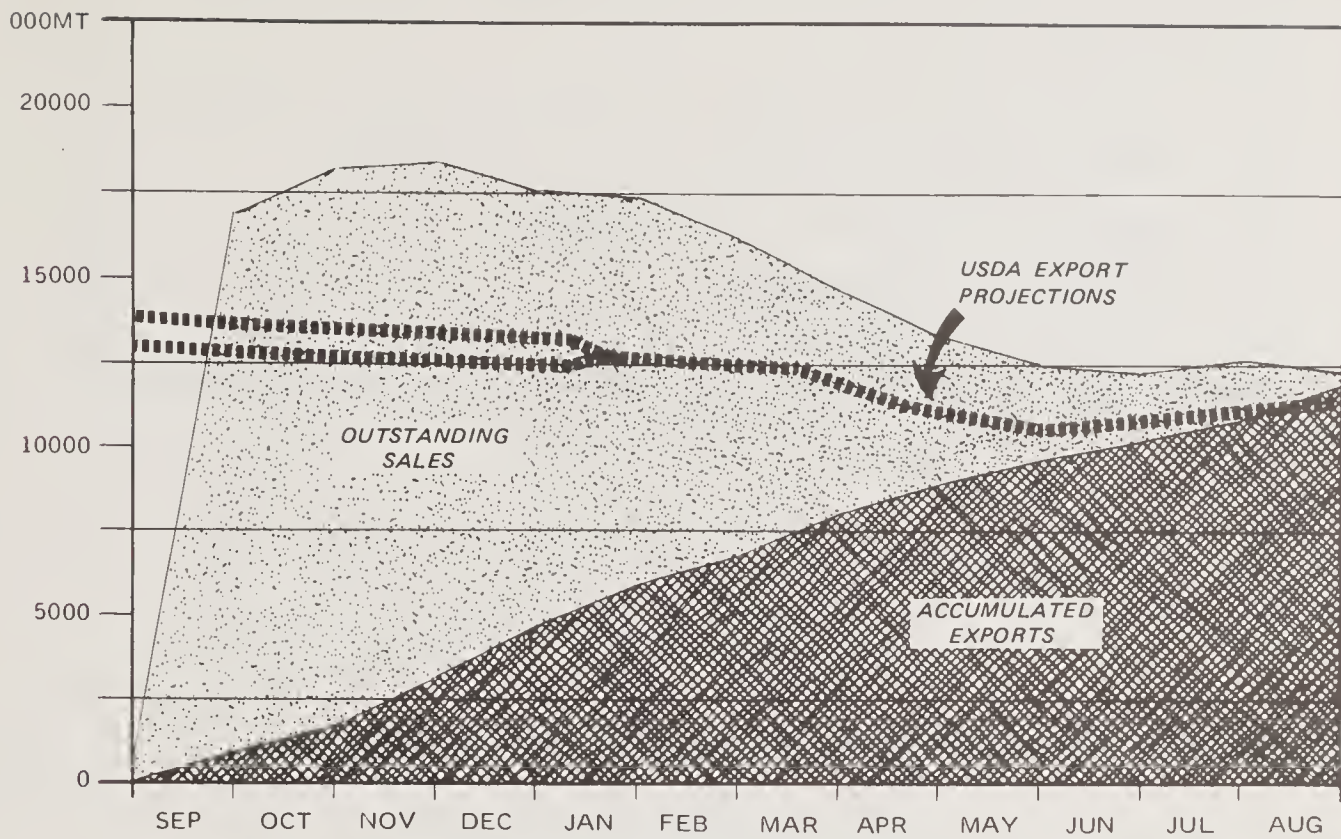

Accumulated exports of rice are also down - dropping over 1/3 from the same period a year ago. Asia and Oceania contributed substantially to this decline - dropping by about 55 percent, due to lower export levels for Korea, Cambodia and Iran. The 1975 record world rice crop has weakened export demand. In addition, many importing countries shared in this record harvest which could further restrict 1975/76 rice exports.
